WORK EXPERIENCE

Senior Software Engineer 2

MakeMyTrip

06/2022 - Present

Roles and Responsibilities

- As a frontend developer in the payments team at MMT, I played a pivotal role in delivering innovative and secure payment solutions that streamlined transactions and enhanced user experiences.
- Independently redesigned & developed the entire payment page, improving UI/UX and enhancing user engagement.(Reducing transaction drop-off rates and increasing conversion rates)
- Reduction in images size & migration to **CDN** in MMT & Goibibo resulted in reduction of bundle size for about 20-30 kb.
- Worked on **performance optimisation (CLS, FCP and LCP)**.
- Worked on features like – UPI Intent(for seamless redirection from browser to UPI payment apps, resulted in increased SR), tax collection at source compliance on payment page.

Associate Technology L2

Publicis Sapient, Noida

12/2021 - 06/2022

Roles and Responsibilities

- Worked on internal projects of the organization.
- Design & Developed and enterprise-grade HRMS solution to streamline employee lifecycle management, including attendance, payroll & performance tracking.

Specialist Programmer

Infosys Limited, Bengaluru

07/2019 - 12/2021

Roles and Responsibilities

- Contributed as a frontend developer for three prestigious clients. **Walmart, Fedex, ICA**.
- Implement recharts library for making responsive graphs and pie charts.
- Worked with modern theming designs, **bootstrap** and **material ui**. Developed desktop and mobile responsive designs using **html/css**.
- Got training in **MERN** stack Development. And created a **E-commerce** application for the final assessment of the training.

PROJECTS

Makemytrip Payment page (Revamp)

- Independently redesigned and developed the entire payment page, improving UI/UX and enhancing user engagement. Resulting in reducing transaction drop-off rates and increasing conversion rates.

UPI- Intent (Makemytrip/Goibibo)

- Implemented UPI intent flow to enable seamless redirection from the web browser to UPI payment apps (Google Pay, PhonePe, Paytm, etc.).

UPI QR (Makemytrip)

The UPI QR feature enables seamless and cashless payments through the scanning of QR codes using UPI- enabled mobile payment apps.

AutoBook (Makemytrip)

The autobooking feature option ensures that users can secure their bookings even if the initial payment fails due to reasons such as insufficient funds, declined card, or technical issues, providing a seamless and convenient booking experience while minimizing the risk of lost bookings due to payment issues.

This feature is enabled only on those bookings which have book@0 option available.

ICA (Company - Infosys Ltd)

- ICA Sweden is one of the largest retail companies in Sweden, operating supermarkets, hypermarkets, and convenience stores. Worked on rev

Roles & Responsibilities - Responsive UI screens using html and css, APIs integrations using axios, added validations and bug fixing.

- Stack – Vue.JS, HTML/CSS.

Walmart (Company – Infosys Ltd)

- Developed and implemented a reporting system in React to generate 32 different types of pharmaceutical reports.

Stack - React JS, Recharts, Reactstrap, HTML.
